

ALD, ELD // Bearings

- Drive tube bearings for use with light loads, e.g. in combination with rack gear units AZD and EZD.
- ALD bearing (aluminium plate) and ELD (steel plate) with bronze ring.
- For mounting of 1" tube and 5/4"-tube, DIN EN 10255.
- Load 70 kg / bearing.
- Other bearings on request.

Note:

- Bearing ALD 19 with split plastic bearing for retrospective mounting or repair.

For AZD and EZD → See Chapter 8
